#### Description

To be able to add personal details of an employee you have to create it first in the PIM module (PIM>>add employee).

Once you have added and saved the employee name with his/her picture and the user logins, the screen as shown in figure below will appear. Click "save" once the fields are added.

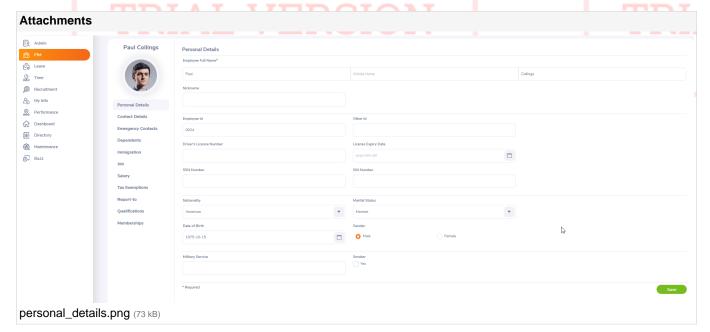

You can edit the following;

- First Name- required field (any characters from numerical, alphabetical, special etc), max. 30 characters
- · Middle Name -should not exceed 30 characters (any characters from numerical, alphabetical, special etc)
- · Last Name -required field (any characters from numerical, alphabetical, special etc), max. 30 characters
- Nick Name- should not exceed 30 characters (any characters from numerical, alphabetical, special etc)
- Employee Id- should not exceed 10 characters (only numbers and letters are allowed)

- Other Id should not exceed 30 characters, only numbers and letters are allowed
- Drivers license number- should not exceed 30 characters (any characters from numerical, alphabetical, special etc)
- · License Expiry Date- expired drivers license should not be allowed
- SSN number nine-digit number in the format "AAA-GG-SSSS" issued to U.S. citizens, permanent residents, and temporary (working) residents.
- SIN number- 9 digits number in the format "123-456-789" (for example) required if you work in Canada or access government programs and benefits. In Canada, the Social Insurance Number (SIN) is the equivalent to Social Security Number (SSN) in the U.S
- Nationality Select from a list of predefined nationalities
- Marital Status Select from the drop down
- · Date of Birth yyyy-mm-dd format
- Gender Click on the relevant gender
- Military Service- should not exceed 30 characters
- Smoker If the employee is a smoker click on the box Click "Save" once completed the Better PDF Exporter for Jira
